

Classroom Birthday

We want to make your child feel special on their birthday! A few days ahead of celebrating a birthday please create a small poster with one photo of your child each year of his/her life beginning with a newborn picture. Describe below what milestones/special events that happened each year of your child's life, beginning with birth. On the day of celebration, we have a special class time tradition where the birthday child holds a model of the earth and will walk around our classroom 'sun', stopping each full rotation so the teacher can explain what happened during that year of their life. He/She will walk around the sun again and stop so everyone can see and hear what happened that year. This continues until the child reaches his current age and the teacher will ask the child what milestones/special events happened recently. Parents are welcome to come celebrate with us! Please arrive promptly at 11:10am and we will ask you to participate if you want. If you cannot make it, do not worry! No food items will be accepted for birthdays due to food restrictions/allergies and frequency of birthdays. You are welcome to donate a book or puzzle to the class in honor of your child's birthday and we will share it with the class.

Child's Name: _____ Birthdate: _____ Age: _____

Birth (give any details regarding birth such as born in the middle of the night, born on Christmas, etc.):

1 year (give any milestones, special events): _____

2 years (milestones, siblings born, special events): _____
